## EDUCATION

### University of Montreal

*Bachelor (B. Sc.) Computer Science*

2020 - Expected December 2023

### Saint Joseph University

*Bachelor (First year) IT applied to Business*

2019 - 2020

## EXPERIENCE

### Software Developer Engineer Intern

*Amazon, Buy with prime team*

May 2022 - August 2022

- Worked along other teams to convert a Rest API to GraphQL
- Set up web architecture on AWS using ECS and Fargate and automated cloud infrastructure using CDK
- Built a system that is scalable, fault-tolerant, low cost and easy to manage/use

### Lead Quality Assurance Tester

*StarDust Testing CTG Group*

October 2020 - March 2022

- Undertaken accessibility audits on websites and PDF following WCAG 2.0 AA standard and reported audit findings.
- Reduced the need for manual execution in accessibility audits by 50% using selenium and other automated tools.
- Worked in a fast-paced, agile environment with a focus on CI/CD and continually partook in sprint retrospectives to strengthen the team, agile, and QA processes.
- Improved quality of 50+ websites by finding, documenting, and reporting problems or design defects.  
**Customer references:** Videotron, Desjardins, Bombardier, Rona, Circle K, ADI Int, Joseph Ribkoff...  
**Accessibility references:** Hydro-Québec, European Parliament...

### Digital Marketing Lead

*Cuisine d'Or Catering*

July 2018 - May 2020

- Taken my family's business online by setting up an online identity featuring branding, a website, social media, and search engine optimization (SEO).
- Converted the traffic to more than 50 qualified leads (including Interpol and an Embassy). Analyzing the results and creating reports.

## WORKSHOP AND PROJECTS
